

Standard Features & Specifications:

progress tank

A50LS

Model No.

Tank: Elliptical design, fabricated from polished aluminum.

Bulkheads: Double bulkhead construction. Heads are dished and flanged for maximum strength and to meet D.O.T. MC-406 regulations. Surgeheads installed and spaced to D.O.T. specifications.

Underframe: Extruded "j" type sills welded to tank bottom, crossmembers are installed at each surgehead and bulkhead. Outriggers are standard on 2500 gallons or larger.

Flashing: Full length double legged leak proof extruded aluminum overturn rails to meet D.O.T. MC-406. May be used as vapor recovery header. Expanded aluminum metal between flashing rails.

Flashing Drains: Two external 1 1/2" O.D. drains at front. Black PVC 1 1/2" tubing shipped loose with tank.

Fill Openings: 16" manholes with 10" fills. Additional in breathing. D.O.T. MC-406 approved venting.

Calibration: 15" threaded rod with marker in each compartment. Sealed at rated capacity.

Discharge Lines: 3"x 2" emergency valves with 2" aluminum tubing terminating in curb side barrel carrier with male pipe threads. Emergency valve operator in curb side barrel carrier with emergency release street side rear.

Barrel Boot: Low profile four barrel boot at rear with expanded metal floor and drop down hinged tailgate.

Bumper: Heavy duty channel bumper to meet D.O.T. MC-406. Shipped loose.

Ladder: Ladder with tread-grip steps and platform street side front. Loop step and handhold curb side rear.

Fenders: Jeep style aluminum fenders shipped loose with tank.

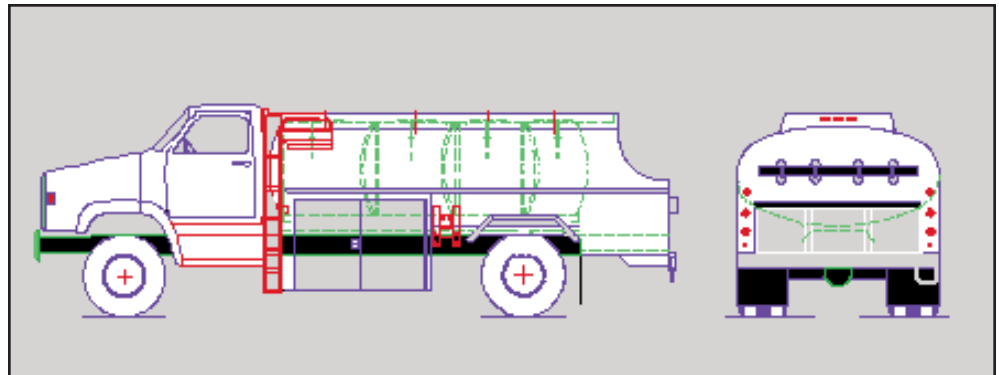

Cabinets: 80" enclosed barrel carrier each side. Full height doors have vertical braces, extra wide "c" spring hold open devices, hinges with stainless pins. Latches are stainless steel.

Lights: Federal Standard MVSS108. Betts "snap seal" L.E.D. lights with vapor proof wiring. Work light with separate switch in curb side barrel carrier.

Finish: Aluminum left in bright finish. Steel parts painted.

All latches are stainless steel.

All hinges have stainless pins.
